

**The New Year**  
**Croatia**  
**January 2019**

# Croatia

## Starting in Split

### **My Opinion**

We loved Split it was so different to Italy, the culture, the prices , the food , cheap accommodation and the people are so friendly. On our first day a guy stopped his car and gave us some jars of honey.

### **Route**

We followed the coast road No8 all the way to Bosnia. We even stayed on the same road through Bosnia. We were cycling in the winter so this very busy tourist road which continues to Dubrovnik was really quiet for us this time of year. Great views and cycling we really enjoyed it.

### **Camping**

We found some great wild camp spots along the coast one was in amongst the olive trees and one tucked away just over looking the sea. This is were we lost the drone. There are lots of campsites all the way through Croatia but they were closed for us as out of season.

### **Airbnb**

If you want accommodation there are lots of affordable apartments to rent through Airbnb you can get as low as €10 a night with a washing machine.

**Border Crossing** - The border crossing out of Croatia and into Bosnia and back out again was easy enough, not busy , you just cycle up to the booth show your passport then cycle into the country. No visa required and we can stay up to three months.

**Weather** - Really cold , rain and snow so be prepared to feel the cold. We were so pleased we had all our Themarest kit with us it is super warm.
